Drilling HSE Advisor

Have to be Malaysian / Indian.

Midwest Oil and Gas Inc, is seeking an experienced Drilling HSE Advisor to assist the International Drill Team. The role involves providing HSE Support and Coordination to Drilling Managers, Supervisors, and Engineers. Candidates must fulfill the following criteria:

- Provide specialist HSE advice and assistance
- Promote a risk-based approach to HSE management within Drilling Campaigns.
- Liaise with the Drilling HSE Team Leader and Development and Production HSE staff to ensure effective use of best practice and consistency in approach to HSE activities.
- Collect, store, analyze and report HSE performance data (e.g. Incident report findings, Audit actions, etc)
- Coordinate monthly office HSE meetings
- Coordinate onshore emergency response preparedness
- Bachelors Degree
- 5 to 10 years oil and gas industry experience.
- 3 yrs drilling experience

Midwest offer very competitive rates of pay depending on your skill level, experience and background. The company has extensive worldwide opportunities.
